GENEROUS  
WARM  
DETERMINED  
DRIVEN  
EMPATHETIC  
ORGANIZED  
OPTIMISTIC  
KIND  
LOYAL

# Addie Bell

**Major:**  
Psychological Science

## **First Destination Outcome:**

Doctor of Physical Therapy Student with the University of Oklahoma Health Sciences Center - Oklahoma City, Oklahoma

**Words to Describe You:** Motivated, Kind, Optimistic

*"My time at William Jewell was truly the best time of my life, and I will forever be grateful for all it gave me."*

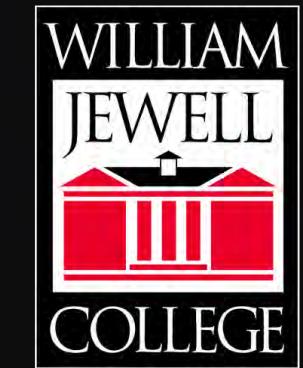

## How has your Jewell experience impacted you and what you are doing now?

*"The simplest way I can describe how my experience at Jewell has impacted my life is that it provided me with a foundation to not shy away from challenges. I moved to Liberty from Oklahoma, so I was experiencing being away from home for the first time, which was a challenge in itself. Not only that, but the academic rigor that Jewell presents its students with pushed me academically in ways I did not know I could be pushed."*

## What do you admire about Jewell?

*"I do not know what it is about Jewell, but every single person I got to know left a lasting impact on my life. All of these people have continued to stay a part of my life and constantly check in on me. The relationships felt so authentic, and I felt supported in every single corner. I truly believe that home is people, and not a place, and I feel so honored to call Jewell my home."*

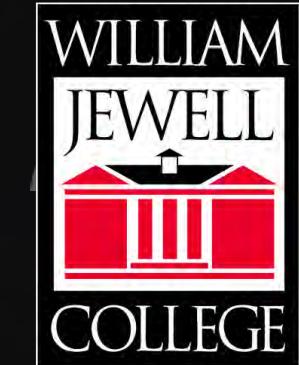

# Dammy Idowu

## **Major:**

Data Science & Oxbridge Institutions & Policy

## **First Destination Outcome:**

Analytics Enablement Associate at Suntory Global Spirits – Chicago, IL

**Words to Describe You:** Determined, Hardworking, Collaborative

*"My time in Jewell's Oxbridge program helped me learn the importance of putting yourself outside of your comfort zone and asking hard/critical questions that help get more direct and better answers. It has helped me grow my confidence and ability to believe in myself and my abilities."*

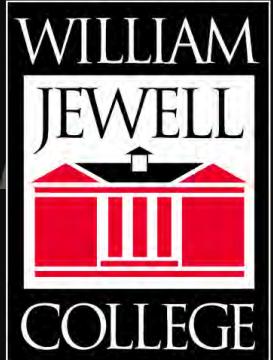

## What aspects of your Jewell experience prepared you most for life after college?

*"My experience as Student Senate President has helped me prepare me for life after college. It taught me the importance of effective communication, organization, and leadership that I have used in all areas of my life."*

## What advice do you have to offer incoming or current Jewell students?

*"Take in every experience, say yes more. Jewell has a lot of unique opportunities, so don't be afraid to say yes or lean into it."*

# Camille Anderson

## Major:

Accounting & Economics

## First Destination Outcome:

Audit Associate at Deloitte - Kansas City, MO

## Words to Describe You:

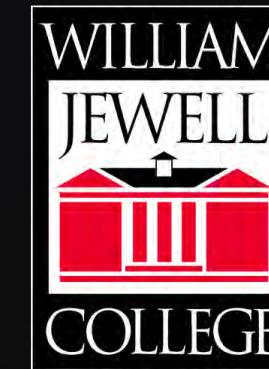

Thoughtful, Ambitious, Warm

*"I loved my liberal arts education. When most people think of accounting, they assume it's all Excel and numbers, but much of my work involves documenting findings and writing memos. The writing-focused courses I took have helped me tremendously. The variety of classes challenged me in different ways that made me a more well-rounded individual with stronger, more developed ideas."*

# What did you learn about yourself in college?

*"You can accomplish daunting goals if you commit to small, consistent steps. I remember my sophomore year setting the goals of passing the CPA exam and working in public accounting— both felt overwhelming and out of reach at the time. But with the support of professors, mentors, and a lot of hard work, I was able to achieve those goals. Now I have new, equally daunting goals, but I'm confident that with dedication and steady daily effort, I can reach those too."*

## What inspired you in college?

*"The people around me made all the difference. Faculty, staff, and peers encouraged and inspired me with their accomplishments and inspired me to reach my full potential."*

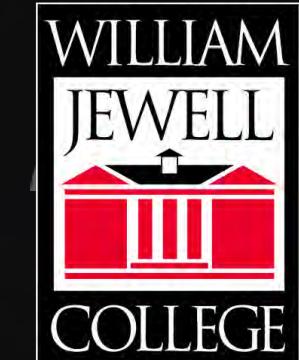

# Jorge Jr. Garcia

**Major:**

Data Science

## **First Destination Outcome:**

Project Controls Specialist at Black & McDonald Limited - Kansas City

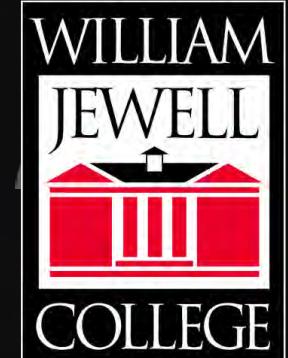

**Words to Describe You:** Generous, Ambitious, Hard-Working

*"Coming from a small school gives you a unique sense of pride. After hiring me, my employer is interested in seeing more Jewell graduates. That small-school pride brings something different out of you – a drive to prove yourself and show everyone what you're capable of."*

## **Tell me about the extra-curricular activities you were involved in during your time at Jewell.**

*"I have had the opportunity to go to meetings like Data Science KC meetings to meet other developers. When you walk in at first, you're thinking 'wow, these people are light years ahead of me, and I'm just fresh out of school.' Little by little, that goes away as you realize you're just as valuable in the scope. The data science community is small in KC, but the more we can unite together, the more we can grow. It has been great."*

## **What do you admire most about Jewell?**

*"I admire the community. The small school is awesome because you get to know everyone for the most part, at least at the surface level. You have people from different backgrounds and it literally makes you critically think about why are things the way they are. I think it's something special."*

# Jaci Webb

**Major:**  
Political Science & History

## **First Destination Outcome:**

American History teacher at Grandview High School - Grandview, MO & Master's Student in Teaching and Education at William Jewell College

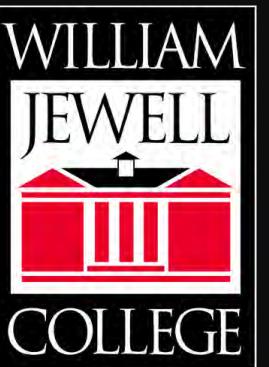

**Words to Describe You:** Loyal, Empathetic, Determined

*"In college, I was most inspired by the students around me that were always pushing me to be better and to think more critically. I was also inspired by just how much my professors knew, specifically Dr. Holiman. His ability to recall quotes and information at the drop of a hat was extremely inspiring."*

# How are you currently using the critical thinking skills you gained at Jewell?

*"I use my critical thinking skills quite a bit when it comes to my job as a high school American History teacher as I am constantly needing to read new articles and think critically about past events so that I can help my students learn. I also have to use these skills when students provide a new perspective that I had not previously thought of."*

## Share a favorite college memory.

*"One of my favorite college memories is the movie and snack nights I would have in the dorms with my closest friends. We would get together and watch a movie, bring snacks, and just have a lot of fun together. Sometimes these were planned and sometimes they were just a spur of the moment idea."*

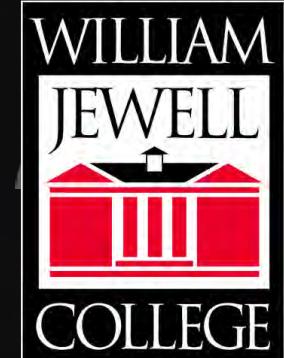

# Skyler Boylan

## **Major:**

Biology, Minor in Biomedical Science

## **First Destination Outcome:**

Master of Physician Assistant Student with the University of Nebraska Medical Center - Omaha, Nebraska

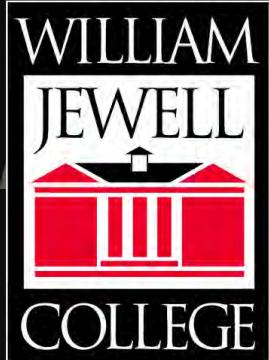

**Words to Describe You:** Organized, Driven, Empathetic

*"The rigor of the classroom and expectation for independent thinking prepared me well for life after college. Jewell taught me how to ask intentional questions, use my resources effectively, learn from professors, manage my time, communicate clearly, and think like a scientist; each of these skills has contributed to my success so far in graduate school."*

**Tell me about the extra-curricular activities you were involved in during your time at Jewell.**

*"I was a member of the women's basketball team and was involved in Alpha Gamma Delta, where I served as the Director of Special Events. I worked as a teaching assistant for organic chemistry, general chemistry, and anatomy courses and labs. I was a member of the Alpha Lambda Delta honors society and was secretary of the Beta Beta Beta Biology Honor Society. I was an ambassador of the Center for Faith and Culture. I also worked as a resident."*

**What did you learn about yourself in college?**

*"I learned that I am much more capable and resilient than I had known. I also realized that I thrive in environments where I am challenged and where I can form meaningful connections and perform purposeful work."*
